Declare the following:

Sporlan Division of Parker Hannifin is committed to compliance with all applicable laws and regulations, including the European Union Restriction of Hazardous Substances (RoHS) Directive that will restrict the use of lead, mercury, cadmium, hexavalent chromium, and two flame retardants, PBB and PBDE.

All Sporlan products contain free machining brass and steel. Lead is used in brass and steel to produce free-machining alloys. This low percentage of lead contained in the alloys is exempted from the requirements of the Directive.

Therefore, Sporlan Division certifies that all products are in compliance with the RoHS Directive.
